Mr. J. D. Beckett Died Wednesday Night at Wound Inflicted by Himself During the Afternoon—Had Been Long a Sufferer.

Mr. J. D. Beckett, aged about 70 years, well known resident of Orangeburg, died at his home at about 9 o'clock Wednesday evening from a self-inflicted wound in the head.

Mr. Beckett had been a terrible sufferer for several years with brain trouble having, at times, very intense pains in his head which caused him to suffer almost death. It is supposed that he was suffering from these pains Wednesday afternoon when he placed a revolver to his right ear and fired into his head, the bullet entering his brain and causing his death at the time stated above. He was found by members of his family lying in the floor of his bed room shortly after the report of the gun came to their ears.

Mr. Beckett was a splendid citizen and until recently lived on a farm in the Orangeburg neighborhood. Because of his continued illness, he sold the farm and purchased a home in the village of Orangeburg where he has been living since that time.

He is survived by his wife, two daughters, Mrs. Ira Hopper and Mrs. John Hopper as well as three sons, Messrs. Forest, Thomas and Henry Beckett. The arrangements for the funeral have not as yet been made.

## DEATH COMES SUDDENLY TO MR. CHARLES T. HUFF

Popular Citizen Dies in a Few Hours After Stroke of Paralysis—Funeral Friday Afternoon From Home.

Mr. Charles T. Huff, attache of the Government building, who suffered a stroke of paralysis while on his way to work Wednesday morning, died at his home in Poplar street Wednesday evening at about 4 o'clock.

Mr. Huff was walking down the L. & N. Railroad with a friend when it was noticed that he was ill and was staggering. The friend assisted him to the Fleming lunch room where he was seated on a chair. The friend and Mr. Huff wanted to send him at once to his home but Mr. Huff insisted that he would be alright in a few minutes. He grew steadily worse, however, and he was carried to the office of Dr. L. H. Long where he lapsed into unconsciousness. It was discovered that his right side was paralyzed and he was removed to his home in Poplar street.

Mr. Huff was a very popular citizen and had for a number of years been in charge of the local Government building. He was an honored member of the local order Knights of Pythias and a consistent member of the Third Street M. E. Church. He is survived by two daughters, Mrs. George K. Burrows and Miss Frances Huff. His sister, Mrs. Ella (Powell), with whom he had made his home for several years, died only a few weeks ago.

The funeral will be from the home in Poplar street Friday afternoon at 2 o'clock and burial will be in the Mayville cemetery. It is requested that friends please omit flowers.

## LUNCH ROOM MAN AND WOMAN CHARGED WITH EMBEZZLEMENT

Man Who Financed Local Lunch Room Procures Warrant For Manager Charging He and Woman Sold To Him Sister Took Funds.

Warrants were issued in Police Court here this morning charging J. R. Reddick, alias Jack Mitchell, and Mrs. Belle Fisher, alias Madam Belle, with embezzlement. The warrants were issued at the request of Manual Shafer, who has been associated with Reddick and Mrs. Fisher in the operation of a Dairy Lunch on the second floor of the Swift Drug Store building.

The three arrived in Mayville from Coshocton, Ohio, some several weeks ago and rented the second floor at Market and Second streets. At first the woman under the name of Madam Belle, told fortunes in the room, but about three weeks ago they opened a lunch room under the name of "Mitchell's Dairy Lunch" and the place was patronized extensively.

Shafer, who was a resident of Coshocton and who is a man probably 40 years of age, says Reddick and the woman met him in the Ohio city and induced him to come to Mayville. He has financed their various business attempts for several weeks to an extent of approximately \$1400, and he says that both Reddick and the woman have embezzled the major portion of this amount from the business leaving him almost without funds except for the fixtures in the lunch room.

Reddick, since coming to Mayville, has gone under the name of Jack Mitchell and has represented that the woman was his sister, while police investigations today disclose that she is no relation whatever. Both Reddick and the woman are held under the embezzlement warrants and will probably be given a hearing before Judge Whitaker tomorrow afternoon while Chief Ott investigates their past through police reports.

## BARKOOT SHOWS ARE NOW IN FULL SWING

In Mayville For This Week Only—Cold Spell Prevents People From Attending First Show.

Owing to the inclement weather the Barkoot Shows did not open on schedule Monday night last, but in spite of the snow and rain the crew of men worked on the shows and paraphernalia and eventually everything was in readiness for an opening last evening. The attendance was very small on account of the cold weather and some of the shows on the grounds opened for only one performance, others remaining closed throughout the night.

The Barkoot shows number twelve feature attractions. Shows that please the young as well as the old. There is "Superba" a high class musical comedy, a show well worth the price of admission; Betty, the Alligator Girl; Big Circuit Side Show; DeLandry's Palace of Illusions; "Bunko," that wonderful Billiken; The Old Plantation Show and several others; besides the "Whip," Merry-Go-Round and the Big Ell Foris Wheel. The shows and concessions are far superior this year than they were last year when this organization showed here and the midway is conspicuous by the absence of any gambling devices.

The grounds are well lighted and those who are looking for clean wholesome amusement, will do well to visit the show grounds for the balance of this week.

It has been rumored that the Barkoot Shows will remain here for a second week. There is no foundation to this as the shows are booked to play Hamilton next week and will leave here Sunday morning en route, closing Mayville engagement Saturday midnight, April 10th.

## POPULAR CONDUCTOR SUDDENLY STRICKEN.

## VETERAN PRESIDENT OF L. & N. RESIGNS

Milton H. Smith, Who Served Road Since Civil War, Resigns as Head Of Big Railroad System.

Louisville, Ky., April 8.—Milton H. Smith, President of the Louisville and Nashville Railroad Company continuously since 1891 and whose connection with that road dates back to 1865, except for a brief severance of connection at one time, resigned from that position and as a Director at the annual meeting of stockholders. Mr. Smith was re-elected as Director at the annual meeting and his resignation followed this step. Formal announcement of the step will be made tomorrow.

A successor to Mr. Smith probably will be chosen at the next meeting of the Directors to be held soon, and the natural supposition here is that while L. Maphother will fill the office vacated by Mr. Smith. Mr. Maphother was Federal Manager of the Louisville and Nashville during Federal control. He also has been a Vice President of the Louisville and Nashville for years and has been in active charge of the management of the road. Mr. Smith having been in virtual retirement for some time.

When the roads were turned back to their owners March 1, Mr. Smith was hailed as the oldest man in the United States to return to the active management of a major transportation system.

Mr. Smith will be 84 years old on September 12, this year. His railroad career began as a telegrapher, and his connection with the Louisville and Nashville dates from immediately after the Civil War, when in 1865 he became Freight Agent at Louisville.

## BURNED SCHOOL HOUSE WAS PRACTICALLY NEW.

## "UP IN MABEL'S ROOM" IS DELIGHTFUL PLAY.

## LIBRARY MOVEMENT IS ENDORSED BY GENERAL WOOD

American Library Association's "Books For Everybody" Movement Receives Endorsement of Many Leaders.

Heartly commendation of the "Books For Everybody!" movement of the American Library Association is contained in a statement by Major General Leonard Wood, United States Army, General Wood, who is on leave of absence from official duties to conduct his campaign for the Republican nomination for the presidency of the United States, declared that he is heartily in sympathy with the enlarged program of the A. L. A. and its broad purposes.

"During the war," said General Wood, "I followed the work of the Association closely, both at Camp Funston and at the Central Department. It performed invaluable service to our men, both as means of recreation and of education. I wish the association the heartiest success."

The "Books For Everybody!" movement is designed through libraries and other agencies to bring to the 60,000,000 persons in the United States now inadequately served, library service that will meet their needs and points to a time when books will be freely accessible to every man, woman and child in the country. Its purpose is to open every avenue of self-education through the printed page, thus making better citizens and fostering the spirit of American ideals, institutions and traditions. To carry out the broad provisions of the program, a fund of \$2,000,000 is now being obtained, not through an intensive drive, but by the individual efforts of librarians, library trustees and friends of libraries.

## TOBACCO INDUSTRY GROWS, FIGURES SHOW

Cigarettes Lead In Expansion Showing Large Gain Over Last Year's Production—Figures Encouraging.

The Tobacco manufacturing industry of the United States, judged by the statistics representing the production in the various lines for the first month of the current year, is in a flourishing condition at the present time. Every branch of the industry shows an increase in output compared with the corresponding month last year, with the single exception of small cigars, and the Government's collections from the sale of revenue stamps were exceeded but twice previously, last October and November respectively. Cigarettes continue to lead the industry in output and the January record indicates that production tends steadily upward. The internal revenue collections during January from cigarette sources constituted nearly half the total amount collected from all sources and exceeded the revenue from large cigars and manufactured tobacco. The prediction is freely made in tobacco circles that production in all lines will continue to mount during 1920, which is confidently expected to be a banner year. The total collection of internal revenue from all sources on tobacco products in the United States during the month of January, 1920, was \$24,852,799.09, an increase over the corresponding month last year of \$11,961,139.76, or 93 per cent. The total collections for seven months of the current fiscal year ended with January, 1920, amounted to \$168,544,831.71, as against \$99,147,427.86 for the corresponding period of the last fiscal year, making an increase of \$69,397,403.85, or 69 per cent.

PEPTO-MANGAN WOULD HELP HER

A Wonderful Tonic That Brings Back  
Vigor and Happiness to Run-  
Down People.

Too often the old folks take a weakened and run down condition as a matter of course, when they should be feeling as vigorous and happy as ever. One secret of staying young in body and spirits is to keep the blood red and rich. Good blood drives away listlessness and depression—keeps mind and body active and alert.

Doctors recognize that worry, a recent illness, impaired digestion or any of a dozen different things may prevent the food we eat from becoming nourishing, strength-giving blood. For this condition they recommend the taking of a good tonic for a time.

Pepto-Mangan, "the red-blood builder," is heartily and widely endorsed by physicians because of its wonderful ability to strengthen and enrich the blood of anemic people—to bring back vitality, health and happiness.

Pepto-Mangan may be had at any drug store, and in either liquid or tablet form, just as you prefer. There's no difference in their effectiveness. But be sure you get the genuine Pepto-Mangan. Ask for it by name, "Gude's" and be sure that name is on the package.—Advertisement.

### PROSECUTION OF NURSE MAY FOLLOW BOY'S DEATH.

Louisville, Ky., April 2. — Criminal prosecution of a nurse who applied a carbolic acid soaked cloth to the body of little 9-year-old Theodore Wallace, Jr., which resulted in the child's death at the Deaconess Hospital today loomed as a probability tonight.

The nurse believed the solution to be alcohol and placed the cloth on the child in the operating room preparatory to an operation for appendicitis. The acid application remained on the child's body for forty minutes and the poisoning penetrated the boy's kidneys and resulted in acute Bright's disease, according to the attending physicians.

Coroner Roy L. Carter said that he is conducting a thorough investigation, but he will not take any action until after the child's funeral. The victim was the son of Theodore Wallace, Sr., contracting painter.

Gambling is almost a universal passion among the men in the Welsh mining districts. Even the numbers of the hymns given out at religious services not infrequently form the subject of bets.

## Nervous Women

Nothing is so good for you as Vinol, our Cod Liver and Iron Tonic. It invigorates the nerves and creates strength.

### Here is Reliable Proof:

Union Hill, N. J. — "I suffered from a nervous breakdown, was anaemic, thin, had a stomach trouble and could not eat, sleep or work. I had doctored without benefit until one day I read about Vinol, and after taking one bottle I began to improve. It strengthened my nerves, gave me a good appetite, and I sleep well and feel better in every way." — Mrs. CHARLES WEST.

The reason Vinol is superior to any other remedy is because it contains the oldest and most famous body-building and strengthening tonics known to medicine.

### 1,200 INSANE CALMLY LEAVE BURNING BUILDING.

New York. — Twelve hundred feeble-minded men and women, inmates of the Manhattan State insane hospital, on Ward's Island, walked calmly and without the slightest disorder from a frame building where they were watching moving pictures when Supt. Heyman announced that there was a fire on the stage.

The building is about 140x60 feet, and was destroyed by the fire, although the fireboats Lawrence, New Yorker, and McTellan, as well as apparatus from Manhattan, tried to check it.

Adjoining the burning building is a three story fireproof brick building in which were sleeping 300 feeble-minded women recently entered. They were excited, as were all the 6,000 patients on the island.

Dr. Heyman said that he has recently established weekly movies for the "extremely good patients." It has proved so effective, he said, that he will go to Albany this week to ask the legislature to make another appropriation to rebuild the burned structure.

### LEARN TO READ AT THE AGE OF 93.

### DR. RAINS LEAVES \$1,000 TO COLLEGE OF THE BIBLE.

Leighton, Ky., 6.—Dr. F. M. Rains, of Cincinnati, late secretary of the Foreign Missionary Society of the Disciples of Christ, left the College of the Bible, of this city, \$1,000 in his will, President R. H. Crossfield, of the college, was informed by notice from Mrs. Rains, who is executrix of the estate.

The remainder of the \$1,000 is to be paid within the year, one-half of it already having been sent by Mrs. Rains. In a codicil, Dr. Rains provides that any residue from his estate, after providing for his widow, be equally divided between the College of the Bible and the Foreign Christian Missionary Society.

The value of the estate is not given.

Words that most puzzle poets to find rhyme words for are silver, window and chimney.

### 300 PENNIES, 4 NICKELS, IS BURGLAR'S Haul FROM STORE.

New Orleans, La.—After much hard work a burglar gained entrance to the grocery at 649 Elmira avenue, owned by Mrs. Daisy J. Kramme, and was rewarded with but 300 pennies and four nickels, which he took from the cash register. Using a brace and bit, the thief bored holes around the lock of a side door, evidently intending to remove it, in this he failed and, throwing away the tool, he climbed through a transom. Mrs. Kramme, who lives in the building, was not awakened by the intruder.

One of the most remarkable boundaries in the world is that between Alaska and Canada. The line follows the meridian without the slightest deviation, regardless of mountains, swamps, and forests, and markers have been set up at points visible from each other over the whole 600 miles length of the boundary.

## CHANDLER SIX

The Most Closely Priced Fine Car

## We Let You Know What The Chandler Price Is

THE Chandler Motor Car Company, ever since the first Chandler Car was built seven years ago, has, in every advertisement issued to newspapers and magazines and all other forms of publications, stated the list price of the Chandler Car.

It states it now and will continue to do so. There is good reason for this and many thousands of motor car owners know it. This is the reason—The Chandler Six is the most closely priced fine car in the whole medium priced field.

Look through the pages of this paper or a magazine that may be lying on your table. There are probably from ten to twenty automobile advertisements. How many name the price of the car?

True, the cost of automobile production has increased in the past year, and it is still increas-

ing. But the Chandler Company, throughout 1919, with all its production greatly oversold, held to its price.

The Chandler Six of today is a highly perfected development of the Chandler Six of seven years ago, which started the trend toward lightweight sixes. All the engineering skill and production efficiency at the command of the Chandler Company has been devoted to this one chassis and that fact is one of the reasons for the Chandler's leadership in its field today.

All Chandler bodies are mounted on the one standard Chandler chassis. Simple, sturdy and dependable throughout, its features embrace, as for years past, the really marvelous Chandler Motor, solid cast aluminum motor base, annular ball bearings, silent chain drive for the auxiliary motor shafts, and Bosch magneto ignition.

**WHAT DOES A SILO HOLD?**

The following clipping from the Southern Agriculturist will give the farmer an idea of what tonnage his silo holds both when filled with green silage and dry fodder:

The capacity of a silo is usually estimated on the basis of 40 pounds to the cubic foot. The actual amount of silage in a silo depends largely upon the condition of the silage when it is put into the silo and the extent to which it is packed. Prof. A. L. Henacker says that he has seen a 16x32-foot silo exceed its estimated capacity by 20 tons, and that, on the other hand, he has seen silage put in very dry and with little packing that would lack 30 or 40 per cent. of weighing out to the estimated amount. To find the cubic feet in a silo, multiply the square of the diameter by 7854 and this by the height. This divided by 50 will give the number of tons the silo will hold.
